GLAZED PORCELAIN | SAN MICHELE™

floor • wall • countertop

UNVEIL **UNMISTAKABLE** BEAUTY.

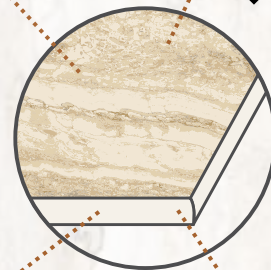

CONJURING THE AMBIENCE OF AN ITALIAN PIAZZA, THE BENEFITS OF THIS COLLECTION GO WELL BEYOND THE SURFACE.

REVEAL IMAGING™

UNVEIL THE BEAUTY OF NATURE. To bring the richness of travertine into your installation, Reveal Imaging™ creates a look that's virtually indistinguishable from natural stone, with the durability and ease of cleaning found in porcelain tile.

MICROBAN® TECHNOLOGY

Features Microban Antimicrobial Protection for on-going protection against stain- and odor-causing bacteria — great for keeping surfaces cleaner between cleanings.

PTCA

San Michele has been certified by the Porcelain Tile Certification Agency.

RECYCLED MATERIALS

Over 50% pre-consumer recycled materials make San Michele a more environmentally friendly choice for your home or installation, helping minimize your impact on the environment.

NOTES

Use of a latex modified thin-set is recommended for proper installation.

Special care needs to be given when installing tiles 20" and larger. Please refer to www.daltileproducts.com/LargeTiles for information.

Strong random shading enhances the natural beauty of this product. To achieve optimal results, tile should be selected from multiple cartons and shading arrangement planned prior to installation.

Since there are variations in all fired ceramic products, tile and trim supplied for your particular installation may not match these samples. Final color selection should be made from actual tiles and trim and not from tile and trim samples or color reproductions. Manufactured in accordance with ANSI A 137.1 standards.

For additional information, refer to "Factors to Consider" at www.daltile.com/CommercialFactors.

Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. Not for use on ramps.
