

R

omancing the Stone, a comprehensive collection of travertine-inspired inserts, borders, listelli, chair and pencil rails in a wide variety of designs. The artisanal feel of hand-crafted travertine trims is resurrected using a stone and resin composite with results that closely resemble ancient originals, without the difficulty associated with cutting, drilling and installing natural stone.

The classic Ivory and Noce colorations as well as the multiple sizes and pattern choices – dots, florals, fleur de lis, diamonds, weaves, and scrollwork – offer the perfect accent for interior residential and commercial walls. Spot the inserts into cutcorner diagonal layouts; innovate your own architectural details through creative combinations of pencil liners and listelli.

The 2"x2" inserts and 1"x13" listelli reiterate the patterns found in Marazzi's Romance Collection of metallic decos. This interplay of designs presented in different media doubles the impact, and, in the case of the inserts with bronze inlay, triples the relief effect.

APPLICATIONS

- All Romancing the Stone compressed stone inserts, listelli and liners are recommended for use in residential/ light commercial, interior wall applications.
- Romancing the Stone is not recommended for use on countertops.
- Romancing the Stone can be installed and used in wet areas such as backsplashes, bathroom walls and showers. This collection is not recommended for use in swimming pools.
- Romancing the Stone is not recommended in areas where temperatures rise above 242 °F.
- Romancing the Stone should be installed a minimum of 25" from direct flames.

CARE AND MAINTENANCE

- Clean regularly with clear water and/or neutral (soapless) cleaner, wipe dry with soft cloth.
- Do not use sandpaper, steel wool, scouring pads or any other abrasive materials.

INSTALLATION INSTRUCTIONS

- Install using a Polymer based adhesive (Liquid latex/polymer reinforced high quality Portland cement grout, water cleanable epoxy grout etc.).
- Follow adhesive manufacturer's instructions for preparation, application and clean up.
- It is recommended to cover the tiles upper surface with painters tape prior to grouting for easier clean up.
- Residue should be removed immediately after grouting.
- If tile requires cutting, apply protective varnish to the cut side. Wait 24 hours to allow curing prior to installing and grouting the application.
