

CONTINUUM™

Stanley
FURNITURE

CONTINUUM™

CONTINUUM PROVIDES THE PERFECT BLEND of a broad range of looks reaching from reliable traditional to sleek modern. The result is furniture that has the feel of crisp contemporary with a softer, easier-to-live-with traditional appeal.

The familiarity of traditional is exhibited in the fine craftsmanship of Chippendale fretwork used in fresh, unusual applications on dining chairs and on table and desk bases. An interwoven wood motif is carried out on select beds and storage pieces.

Contemporary elements are apparent in the consistent perimeter framing around edges of case pieces that seemingly “float,” not rest, on the floor. Additional aspects of more modern design are revealed in the use of pleasant, yet unexpected contrasts, details and scale.

The collection, while offering this multiplicity of style, also provides an accommodating selection of two exquisite lightly distressed cherry finishes —Amaretto Cherry (darker) and Candlelight Cherry (lighter). Intriguing high-sheen, lacquer finishes of Creme, Ocean, Cinnabar and Java accent select pieces to create visual interest. Additional textural materials such as shagreen, metal, rain glass and marble provide a captivating splash of flavor and drama. Oiled brass and polished nickle hardware in rectangular, round and recessed pulls provide clean understated accessibility into drawers and doors.

Best of all, because Stanley Furniture builds exceptional quality into Continuum at every step of the furniture-making process, you can be sure the selections you make today will remain a treasured part of your life for years to come.

Stanley
FURNITURE

finish / wood characteristics

AMARETTO CHERRY

CANDLELIGHT CHERRY

The collection pieces crafted of solid cherry, select hardwood solids and cherry veneers come in two beautiful lightly distressed finishes—a dark Amaretto Cherry and a lighter Candlelight Cherry. Both finishes allow the pronounced natural graining of the wood to shine through.

accent colors

CREME

OCEAN

CINNABAR

JAVA

Stunning versatility of design is offered by the contemporary feel of sleek high-shine lacquer finishes. Fresh exciting colors of Creme, Ocean, Cinnabar and Java accent select pieces to create inspiring visual interest.

fabric

Relaxed comfort and tempting textures appear in our choice of fabrics that adorn select items. The collection utilizes Hitch Pearl, Murali Ottaman Old Ivory and Brampton Bagel textural fabrics.

HITCH PEARL

MURALI OTTAMAN
OLD IVORY

BRAMPTON BAGEL

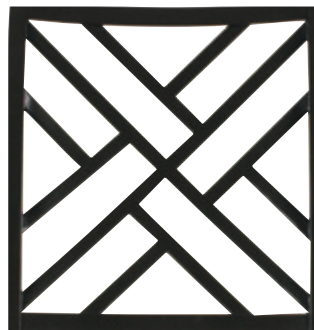

hardware

The perfect accent for accessibility behind doors and drawers lies in our understated hardware designs. Oiled brass and polished nickel material compose canted rectangular handles, horizontal rectangular pulls and simple round knobs. All of which provide a pleasing weight and feel to the touch.

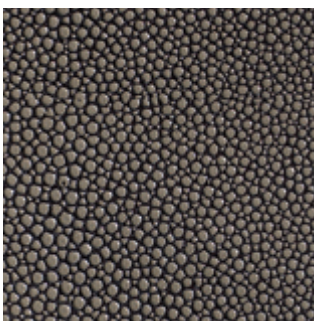

design

Expertly crafted Chippendale fretwork provides the familiar feel of traditional design and is used in the collection on chair backs, table and desk bases. Seamlessly interlaced woven wood motifs are carried on select beds and storage pieces to add depth, texture and visual interest.

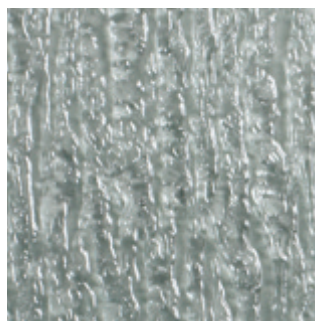

material

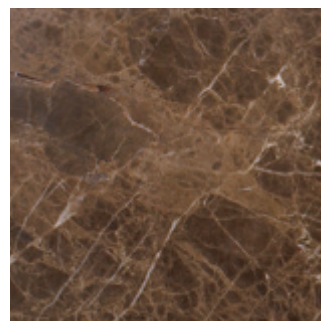

The inclusion of additional textural materials such as shagreen, marble and rain glass provides a splash of drama.

CHOCOLATE FAUX SHAGREEN

RAIN GLASS

MARBLE

Each piece of natural marble used in Continuum is unique. The characteristic swirls, vein lines and pattern variations are due to mineral impurities originally present in the limestone and also give marble its color. Consequently your marble will not be identical in color to the piece shown here. In addition, structural variations of the stone's crystallization cause what appear to be hairline cracks. Like the color variations, the structural variations are not a defect but an important part of any marble's unique character.

SEE PAGES 24, 25

-100 INFRARED REMOTE READER

The infrared remote reader transfers your remote control signals to your audio/video components even if they are positioned behind wood panel doors, eliminating the need to insert glass panels. The infrared reader includes a receiver with mounting block, an infrared repeater control unit with power cord and three emitters. Each emitter, when properly positioned on the interior of the case, will transfer your remote control signal to the audio/video components positioned on one shelf. The system is easy to install and use. No programming is needed and the emitters may be repositioned as your audio/video components or configurations change.

Please measure your television prior to purchase to assure proper fit.
Actual TV dimensions vary by manufacturer and model.

*816-27 Creme, 816-37 Ocean,
