Technical and Product Description CICATRICES DE LUXE ceiling fixture providing light through eight individual blown and hand-cut leaded crystal vases. The vases are secured to three fire retardant aluminum and technopolymer seats, which are in turn attached to chemically tempered super clear glass platforms. The 12 Volt current is conducted from the central stem to the lamps via a silk-screened silver circuit with a ceramic varnish coating. The suspension stem and rose, which house the electronic transformers are matte nickel plated steel.
