	When storing or maintenance, remove plug from power socket and make sure not to operate by wet hands to avoid any hazard.
	When storing, remove plug from power socket.
	When power was cut off, make sure to switch off and detach plug from power socket.

FUNCTIONS AND FEATURES

1. The ergonomically shaped backrest moving structure design does more suit semasiology and offer best massage efficiency.

2. Automatic body scanning technology effectively adjusts massage positions.

3. Delicate massage presents humanistic and overall massage enjoyment. The backrest moving mechanism between neck and waist performs kneading, tapping, shiatsu and synchronization massage modes; Meanwhile adjustment of speed and width helps to relieve muscular fatigue and improve blood circulation.

4. Equipped with heating devices on waist, it effectively improves lumbar blood circulation.

5. High power motors on perineum part offers strong vibration force.

6. Feet bottoms are adopted wavelike massage and heating together to scatter cold and make you feel better.

7. Lower back adopts wavelike air pressure massage. Air bags at thigh, buttock and leg parts have been filling and releasing air alternatively to offer repeated air pressure massage and really helps to relax nerve and improve blood circulation for lower body.

Air bags on Both Sides of Thigh

Legs & Feet Air bags and Bottoms Heating

8. Movable arms air pressure massage mechanism supplies alternative air pressure massage to arms.

9. Music interactive feature: music controls strength of backrest tapping and perineum vibration.

10. MP3 music player introduces OTG technology which is very easy and convenient to renew songs.

TROUBLE SHOOTING

Symptoms	Please check below	Solutions
“xiu xiu” or “da da” sound	It is attributed to the construction of the chair or from friction between the massage rollers and the leather cover	Normal
Not operating	If plug has slipped out of power socket?	Connect plug
	If power has been switched off	Switch on
	If fuse was broken	Replace same type of fuse
Abnormal playing for certain music	does music format match MP3	Replace music format
Double sound be heard when pressing buttons	Should U disc be connected well	Reconnect U disc
	U disc has been initializing	Select buttons after 5-10 seconds
	Is there any MP3 format music inside U disc ?	Check it by computer
Soundless of speaker	If headphone still stays headphone connector	Pull out headphone
	If it is the lowest volume or turns off volume	Turn up volume
Over-current on motors	Is it over-burden on backrest and calf shelf	Decrease burden on backrest and calf shelf

If above solutions haven't solved the problems, turn off power, remove plug from power socket and contact the local distributors or headquarter for repair and maintenance.

● OPERATING METHOD

● MP3 music player

The product include MP3 music player inside, either speaker or headphone are available to enjoy music.

- 1. Connect U disc with songs into USB jack.
