	 Kk Ø1/4**1-3/8" 10 pcs
	 Ll 4mm 1 pcs
File Rod	 Zz 2 pcs

**WARNING**

Pinch Point. keep fingers from underneath drawer front when releasing.

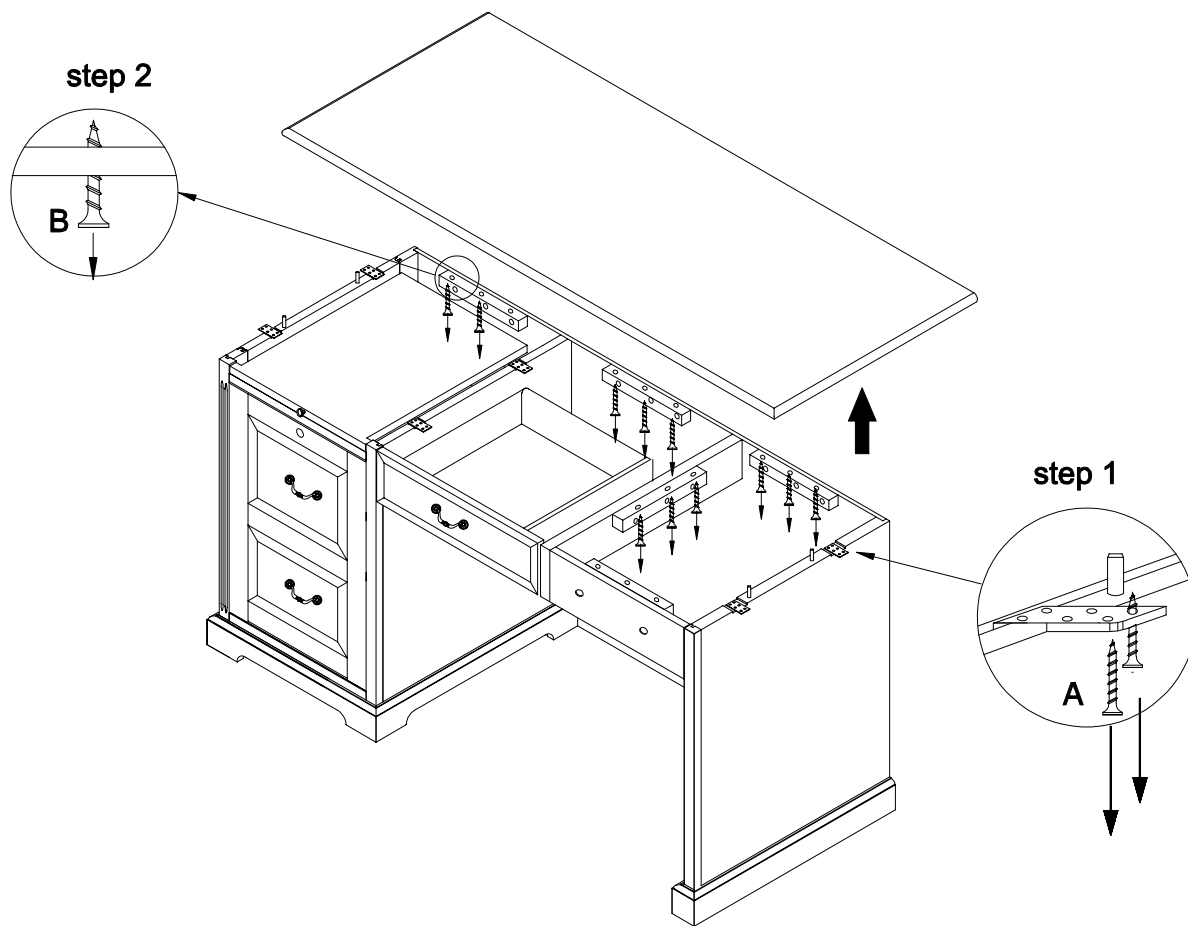

## The desk top can be removed by the following steps:

step 1. Remove the 5/8" long screws attaching the top through the metal plates on the outside ends of the desk and underneath the knee-hole area. Save all screws to use to reattach the desk top.

step 2. Remove the 1" long screws from the cleat at the top rail of Back Panel and underneath the right-hand pedestal.

step 3. To reattach the top, position the top with equal overhang around the edges of the top and simply install the screws in reverse order listed above.

Note: When the top is removed from this desk, handle the desk with extreme care if moving. The top adds to the desk's stability and sturdiness and the desk could easily be damaged with the top removed.
