

**This light should be installed
by a licensed electrician.**

LAMP INSTALLATION AND ASSEMBLY

1. Shut off power to the outlet box.
2. Attach the universal mounting plate to the outlet box using outlet box screws. (Fig. A)
3. Determine the height which the fixture is to be hung. Screw together stems as needed to achieve desired length. (Fig. B)
4. Make appropriate electrical connections using wire nuts. If there is no green ground wire from the outlet box, then connect the fixture wire to the mounting plate with the green screw provided. Place connections in outlet box.
5. Attach canopy over outlet box with canopy nuts.
6. Place shade pins into shade holder tube. (Fig. C)
7. Install medium base bulbs by unscrewing the socket hub.
8. Place glass diffuser under socket hub and secure with diffuser support plate. (Fig. D)
9. The cable lengths can be shortened if necessary by adjusting the position of the cable terminals.
10. Restore power to fixture.
