

Spark Series
Don Chadwick

SPARK™ SERIES Designed by Don Chadwick for Knoll, the Spark Series of stacking side and lounge chairs brings a spark of energy to every space with its bright colors and unique personality. A perfect balance of design and innovation, the chairs are pleasing to the eye, comfortable and affordable for home dining and lounge areas, both indoors and out. Available with an optional seat pad for indoor use, you can select from a wide range of fabric colors and textures to complement or contrast the Spark color palette. Both side and lounge chairs stack six high on the floor and ten high on the Spark dolly.

DON CHADWICK Over the past few decades, Don Chadwick pioneered the use of modern materials, molding processes and mechanisms, leading to cutting-edge products that have raised the standard in their market. A native of Southern California, Chadwick received his principal training in design at the University of California, Los Angeles. He then worked for architect Victor Gruen before establishing his own practice in 1964. Chadwick's work with Knoll marks a milestone in the career of an innovative designer.
