- * Five feet high for easy access and ADA compliance
- * Superior writability and erasability!
- * Class A Fire Rated!
- * Available in projection surface

50 Year Guarantee

Tray corners are protected with rubber Dura-Safe® end caps.

El Grande Porcelain Steel Markerboard with Deluxe Aluminum Trim

- The El Grande porcelain steel markerboard features a 5' high surface to accommodate a variety of ages and needs, or to meet ADA requirements.
- Magnetic porcelain steel markerboards are engineered for superior color contrast with dry erase markers.
- Low gloss porcelain dry erase surface provides superior writability and erasability with no ghosting. Reduced surface light distortion enhances visibility to provide optimum eye comfort.
- Steel surface is permanently laminated to a particle board substrate for stability and durability.
- Also available in a matte gray finish that cuts glare by 60% over standard porcelain steel, making it a superior choice for audio/visual environments. Projection surface requires cleaning with a damp cloth for optimum performance. Some ghosting may occur.
- Anodized aluminum trim has a 7/8" profile with hairline mitered corners. Includes a full-length tackable map rail with a colored cork insert, and a full-length accessory tray with rubber Dura-Safe® end caps to eliminate sharp edges.
- Class A Fire Rated board. A full test report copy is available upon request.
- Made in the USA. TAA compliant. 50 year guarantee. Standard off white surface is GREENGUARD Indoor Air Quality Certified® and GREENGUARD Children & Schools CertifiedSM.

Technical Specifications

- Multipurpose magnetic surface with superior writability and erasability for dry erase markers. Superior contrast and reduced surface light distortion minimizes glare for optimum eye comfort.
- A precisely balanced porcelain enamel ground coat is furnace-fused to both sides of 28 gauge (standard) or 24 gauge (custom) steel.
- The first furnace fuses a ground coat of enamel that is heat-softened at approximately 1450° F. The second furnace firing fuses a coat of enamel to the ground coat enamel. Color Fusion ceramic top coat is applied providing the desired surface color.
- A fade resistant waterproof resin glue bonds the porcelain to a moisture-resistant core and .005" polyester foil backer sheet. Also available with upgraded sheet aluminum backer. Custom sizes are available. Off-white is standard.
