

Samoan Oval Pool Package Features

Durable 8-Inch Top Rail & Vertical Uprights

Samoan pools are made with the thickest steel of any pool in its class. This extra heavy gauge steel means less bending and warping than pools built with regular weight steel. Extra wide 8 in. steel top rails and uprights, along with attractively styled two-piece fiber reinforced resin top caps that lock into the framework construction, further the pool's durability.

Limited Warranty

Backed by a 25-Year Limited Manufacturer's Warranty

Buy with confidence! The Samoan Above Ground Pool is backed by a 25-Year Limited Manufacturer's Warranty.

Sand Filter System with 1 or 1.5 Horsepower Pump

This high performance 1 or 1.5 HP sand filtration system will keep your pool crystal clear and deliver years of trouble free operation. It is constructed from durable polyethylene making it weather and corrosion proof. Precisely engineered laterals inside the filter provide an even flow through the sand bed to ensure maximum filtration and a shimmering clean pool.

12 x 24-ft Oval: 1 HP
18 x 33-ft Oval: 1.5 HP

15 x 30-ft Oval: 1 HP
21 x 41-ft Oval: 1.5 HP

Efficient Skimmer and Return System

Swim Time's Samoan pools come standard with a Widemouth Skimmer, which is typically an upgrade on most competitor models. Skimmers act as the suction machines of all unwanted debris, meaning the wider the skimmer, the more debris it can pick up. This widemouth skimmer provides maximum water circulation to remove leaves, bugs and debris from your pool before it sinks to the pool floor. It is modeled with a deep body and locking basket for the most effective skimming action.

Sleek & Sturdy Resin A-Frame Ladder

This sleek and sturdy A-frame ladder is designed for easy entry and exit from your Samoan above ground pool. The ladder is constructed from maintenance-free resin so it will not rust or corrode over time. The outside ladder flips up and locks into place to prevent unwanted entry. Wide, 5 in. non-skid platform and treads give it a super secure foothold. This ladder gives you the durability you want and all the safety features you need. Weight capacity - 300 lbs.

Premium Blue Overlap Liner

The premium overlap liner included with your Samoan Above Ground Pool Kit is made using the unique Lamiclear Process for maximum protection from pool chemicals and the sun's damaging UV rays. Constructed of standard gauge vinyl with double-welded seams, our liners will last longer than the competition and maintain their beautiful appearance for years to come.
