

Rugged Steel Pool Package Features

Durable Walls & Uprights

Made of high quality heavy duty steel, the Rugged Steel pool will outlast plastic or vinyl pools and will withstand winter's worst. The 1-inch top rail and uprights provide a stable foundation that can handle all of your family's pool time fun. All steel parts of the Rugged Steel pool are protected by a zinc alloy coating that gives this pool superior corrosion resistance. The attractive sand-colored sidewall is also sure to complement any backyard décor.

Limited Warranty

Backed by a 15-Year Limited Manufacturer's Warranty

Buy with confidence! The Rugged Steel Pool is backed by a 15-Year Limited Manufacturer's Warranty.

12-in Sand Filter System with 1/2 HP Pump

This high performance 1/2 HP sand filtration system will keep your pool crystal clear and deliver years of trouble free operation. It is constructed from durable polyethylene making it weather and corrosion proof. Since there is no cartridge to clean, this system is very low maintenance and easy to operate.

Efficient Skimmer and Return System

Swim Time Rugged Steel pools come with an efficient Skimmer and Return system. Skimmers act as the suction machines of all unwanted debris in your pool. This Swim Time standard skimmer provides maximum water circulation to remove leaves, bugs and debris from your pool before they sink to the pool floor. It is modeled with a deep body and locking basket for effective skimming action.

Sturdy A-Frame Ladder

This sleek and sturdy A-frame ladder is designed for easy entry and exit from your Rugged Steel above ground pool. 3-inch SureStep plastic steps attached to the stainless steel ladder frame allow for even weight distribution and safe use. The barrier prevents entrapment under the ladder. Lightweight and easy to store. Weight Capacity – 300 lbs.

Premium Blue Overlap Liner

The premium overlap liner included with your Rugged Steel Above Ground Pool Kit is made using the unique Lamiclear Process for maximum protection from pool chemicals and the sun's damaging UV rays. Constructed of standard gauge vinyl with double-welded seams, our liners will last longer than the competition and maintain their beautiful appearance for years to come.
