POWERED BY **cleanfix**

## RA 410E

### Hard Floor Cylindrical Electric Scrubber

The **RA 410E** hard floor scrubber achieves excellent cleaning results on all types of hard flooring. Tough, long bristles on its cylindrical brush loosen and remove even set in dirt from grout lines and crevices.

**RA 410E** thoroughly scrubs and dries in both forward and reverse. Two twin sets of squeegees mounted in front of and behind the brush ensure full pickup — no dulling dirt or liquid gets left behind. Makes quick work of any size floor.

**A smaller footprint** makes RA 410E a dream to operate. The unique molded interior and bladder system make this tough machine surprisingly compact, so it's no big deal to fill, drain, transport and store in a small area.

**Longer, tougher bristles dig deep into grout lines for in-depth cleaning.**

**13" Scrubbing path**  
**18" Squeegee width**  
**9 gal sol / 12 gal recovery**  
**86" Waterlift**  
**Great for cleaning and drying**  
**all kinds of hard floors.**
