

CASAFORUM JUNIOR

Elegant and refined, the finish on the Casaforum Playhouse is applied in an exquisite manner, with transparencies, textures and patterns.

FEATURES:

The outside finish with high shine modular plates gives the house a diversity of shines which allows us to define this house as a sculpture in the garden. Spacious, with a comfortable interior, this playhouse offers a wide variety of distributions as it has one interior wall without windows.

TECHNICAL SPECIFICATIONS:

Materials:

- The main material of this playhouse is Birch plywood. It is a material that is highly resistant since it made of a dense wood and glued with phenolic resins ideal for wet environments.
- Bevelled corners are weather-proof.

Outside finish:

- The outside finish has an overlay of steel sheets, with holes of different diameters shaped like vine leaves. These sheets are painted using the same technology as in the painting of the bodywork of vehicles: e-coat primer and high-temperature lacquer, for maximum durability.

Flooring:

- The indoor flooring is also made of Birch plywood with phenolic glue. The top layer of the floor is finished with a non-slip material, similar to those used on slides and other children's playground equipment.

Roof:

- The roof has thermal insulation and precast waterproof EPDM rubber material with a water drain pipe incorporated from warehouse, to guarantee total water tight closure.

Doors and windows:

- Has one door with design handles and finger protection in the hinge area, one operable window, and 2 stationary windows. All made with methacrylate for safety. The door that opens outward for security reasons.

Total weight:

- 230Kg (507lb)

Recommended age:

- From 3 to 10 years old.

OPTIONAL EXTRAS:

- **Lighting.** The playhouses can be equipped with various interior lighting systems with low voltage lighting made of white warm LED downlight.

In this case it works with 3 3W Recessed lights with optics to choose from, at 12V. The switch is next to the door.

Electrical box under flooring, can be registered from the inside.

- **Soft natural carpet flooring.** A very high-end carpet from the InterfaceFLOOR, and designed for public concurrence. Provided with 50x50cm tufted plain level loop tiles, are very easy to install and clean.

Grey colour with some white and black, model Heuga 727, ref.7901

- **Lock set.** For safety, the door can only be closed from the outside.

- **Guides for curtain.** Supply rails as including parts for corners and curved sliding parts to support the curtain, which is not included.

- **Artificial Grass over roof.** To improve the finish of the exterior roof, it's possible to cover the roof with artificial grass, or white marble gravel.
