Product Assembly & Installation Instructions for on the wall Spice Racks

Models Covered:	Tools Needed:
Spice Rack -All on the wall Series Summit, Midland	Battery or Electric, and a Phillips tip or Phillips Screwdriver, Hammer, Pencil

All of our spice racks are designed to mount easily on the wall Only Using the Hardware we have provided!!

Hardware you should have:

- 1 5/8" screws consistent with the number of pocket holes in your rack

To mount your rack to the wall:

1. All of the spice racks in this series have inlaid back panels... **No glue or nails are needed to attach the panel.**

To help keep the back panel in place for ease of installation use a piece of tape to hold the panel on while you mount the spice rack... **See Image 1**

Using the 1 5/8" screws, place the rack on your wall using the pocket holes underneath the shelves and screw it directly into the drywall. Do NOT use any type of wall anchors, they are not needed and will not work because the screws go in at a 15 degree angle. **See Image 2**

(The rack may have two or more mounting points, depending on how tall it is).

2. Some models of Spice Racks come with Acrylic dowels which can be removed to make it easier to paint or stain your Spice Rack. To remove, push the dowel all the way over to one side and bend slightly to remove. Repeat the same procedure to re-install. **See Image 3**
3. If your rack came with wood dowels and any ever get broken, they can be replaced with acrylic dowels making a nice upgrade to your spice rack. Acrylic dowels are available for purchase contact our Customer Service Department by calling 913-829-6000 or emailing Robert.wgwoodproducts@gmail.com with your contact information for us to call you and take the order over the phone...

4. If installation of the spice rack is preferred to be on a hollow core door such as a pantry door, we do offer a special installation kit which comes with anchors and cleats that will enable the spice rack to be mounted securely to a hollow door. **We recommend that you do not mount any spice rack taller than 48" on a Hollow Core Door!!** You can purchase this kit by contacting Customer Service Department 913-829-6000 or emailing Robert.wgwoodproducts@gmail.com with your contact information for us to call you and take the order over the phone...
