

Comète 2L on rounded profile

Comète

[NL]

De Comète spot op beugel met scharnieren omhult de volledige lamp en lamphouder. De Ba15D lamphouder voor AR 70 lamp 12V wordt gevoed door een gestoffeerde getwiste kabel. De AR70 spot heeft een anti verblindende afscherming voor de lichtbron, hetgeen dankzij de keuze uit Wattage en bundel het licht mooi accentueert met een minimum aan verblinding, voor een optimale sfeer.

[FR]

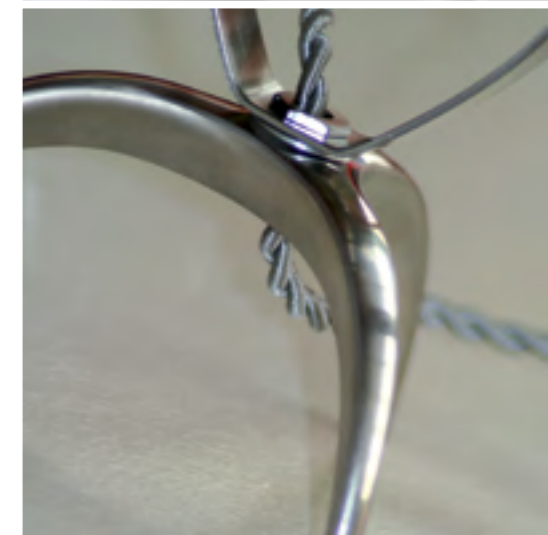

Le spot Comète est caractérisé par un arc sur charnières qui embrasse toute la lampe et la douille. La douille Ba15D pour la lampe AR 70 12V est alimentée par un câble de tissu torsadé. Le spot AR70 n'éblouit pas (écran anti-aveuglement). On peut ajuster au mieux la lumière en fonction d'un événement particulier pour une ambiance optimale en fonction de la puissance et du faisceau.

[EN]

The Comète spot covers the whole lamp and lampholder. The twisted fabric cable gives this collection an extra, aged look. The Ba15D lampholder is suitable for an AR70 lamp with 8° or 24°.

[DE]

Der Comète Strahler auf Bügel mit Scharnieren umhüllt die ganze Lampe und den Lampenhalter. Der Ba15D Lampenhalter für AR 70 Lampe 12V wird von einem gepolsterten getwisteten Kabel gespeist. Der AR 70 Strahler hat einen Blend-Schutz für die Lichtquelle, was durch die Wahl aus Wattleistung und Bündel das Licht schön akzentuiert mit einer minimalen Blendung für eine optimale Atmosphäre.

[NL]

Bij bestelling van een aantal extra spots, zullen deze samen met transformator, bijkomend op de 4L profiel worden toegevoegd. Op verzoek worden de spots geplaatst op de verdeling die u wenst, zonder toegevoegd verzoek bij order, zullen deze spots gelijk worden verdeeld over het profiel.

[FR]

Pour toute commande de spots supplémentaires, un transformateur sera fourni comme accessoire sur le profil 4L. Les spots sont placés en fonction de la répartition lumineuse que vous souhaitez, et si pas de demande spécifique à la commande, ces spots seront répartis équitablement sur le profil.

[EN]

When one or more extra spots are ordered, they will be added together with the transformer on the 4L profile. On request spots are placed following the separation you want. With no added request with the order, these spots will be placed on the profile with an even distance in between.

[DE]

Bei der Bestellung einer Anzahl zusätzlicher Strahler werden diese zusammen mit dem Transformator auf dem 4L Profil hinzugefügt. Auf Wunsch werden die Strahler auf die von Ihnen gewünschte Verteilung angebracht. Ohne Ihre Sonderbitte werden diese Strahler gleichmäßig über das Profil verteilt.
