

## **GENERAL PRODUCT INFORMATION:**

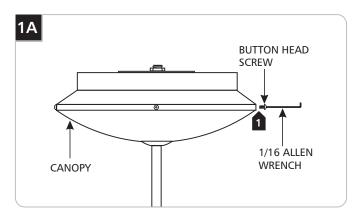

This product is suitable for indoor dry locations only.

This product is dimmable with a low voltage electronic dimmer.

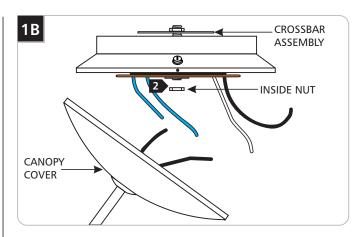

## **CAUTION**—RISK OF FIRE

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and TURN THE POWER TO THE ELECTRICAL BOX OFF.

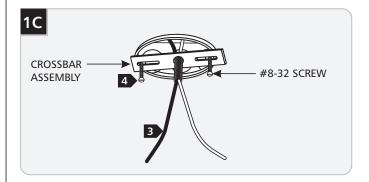

1 Remove the four button head screws around the chandelier canopy with provided 1/16 Allen wrench.

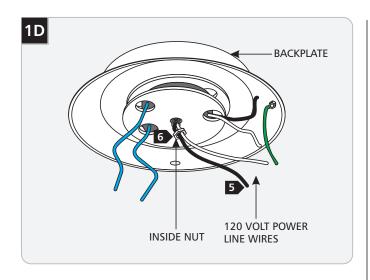

2 Unscrew the inside nut to remove the crossbar assembly.

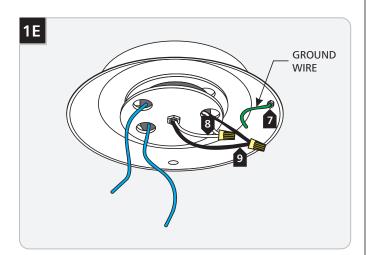

Do not disassemble the nipple from the crossbar.

- Feed the 120 volt power line wires through the nipple attached to the crossbar.
- 4 Mount the crossbar assembly to the electrical box with the two #8-32 screws.

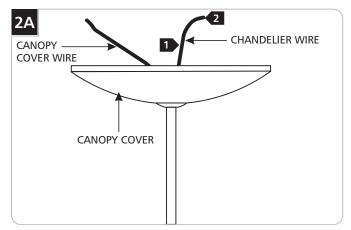

- **5** Feed the 120 volt power line wires through the backplate center hole.
- 6 Slide the backplate all the way onto the threaded nipple (attached to the crossbar) and secure it with the inside nut.

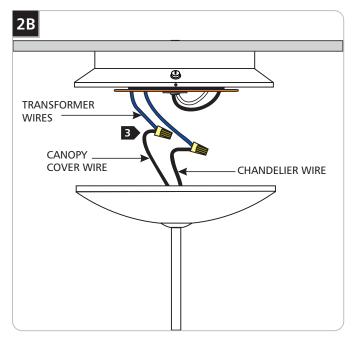

- **7** Connect the fixture ground wire in accordance with local electrical codes.
- 8 Connect the white transformer wire to the neutral power line wire with a wire nut.
- 9 Connect the black transformer wire to the hot power line wire with a wire nut.
- 10 If extending the chandelier, follow the instructions provided with the chandelier extension kit.

# **Mounting the Chandelier**

- Shorten the chandelier wire to the canopy cover wire length with a sharp cutter.
- 2 Strip the chandelier wire end.

**NOTE:** It is recommended that one person hold the chandelier while the electrician connects the power and installs the canopy cover.

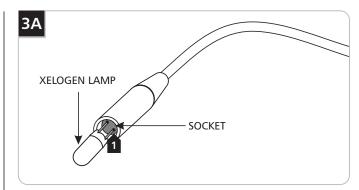

Connect the canopy cover wire to one 12 volt transformer wire and the chandelier wire to the other 12 volt transformer wire with wire nuts.

# CANOPY COVER 5

- Place all wires into the canopy cover and line up the canopy cover holes with the backplate holes.
- 5 Replace and tighten all four button head screws with the 1/16 Allen wrench.

# Installing the lamp

**NOTE:** Use only your fingers and a soft cloth to replace the lamp.

Use **MAX** 12 Volt, 10 Watt Xenon (Xelogen) bi-pin lamp.

1 Push the lamp pins all the way into the socket.
