

MonoRail End Power Feed With LED Transformer 

DESCRIPTION

Pushes on the end of the run and can be used when the canopy cannot be installed directly above the MonoRail or directly behind the Wall MonoRail run. This power feed includes a removable 4" round canopy with 12â€™ of field-cutttable softwire leads and a 60 watt 120 volt input/12 volt LED output electronic transformer that fits in junction box.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box (not included).

DIMMING

Dimmable with a 600 watt low-voltage electronic dimmer. The dimmer is placed on the line side of the transformer. (Consult dimmer manufacturer for specifics).
