

CRISTELLO

Only lighting fixtures that contain a 100% Strass crystals receive the Strass Certificate as a symbol for the best crystal stone quality. Next to diamonds and other gemstones the Strass crystal is the most suitable material for light refraction. Strass crystal components are made of the finest lead crystal with a minimum of 30% lead oxide. Strass crystal is free of impurities such as striate cords and bubbles and is therefore more lucid than air or water.
