The natural **beauty** of this product is enhanced by the unique **graining** patterns and **random** color variations inherent to the cherry **species**.

SHAW GREEN INITIATIVE™ | 009

Product Description

Chesapeake features American cherry veneers in 3/8" thick planks available in 3 1/4" and 5" widths with microbeveled edges and ends and a stunning full-filled finish to accentuate each plank. The natural beauty of this product is further enhanced by the unique graining patterns and random color variations inherent to the cherry species. Protected by Shaw's superior DuraShield™ finish, this product carries a limited Lifetime warranty, can be installed below grade and installs up to 70% faster than conventional hardwood flooring.

SHAW GREEN EDGE™

Epic's 3/8" thick hardwood products use approximately 50% less newly forested wood in their production than conventional 3/8" engineered alternatives.
That's the Shaw Green Edge |

Note: All woods are affected by light. Some exotic species will darken while other species will tend to lighten over a period of time when exposed to natural and artificial light sources. Some wood species darken and/or lighten at a faster rate than others. This is a natural characteristic of wood and does not constitute any type of product defect.

GLUELESS ENGINEERED CONSTRUCTION
