Shaw Real Wood Flooring—Only Better.

Hampshire showcases the rich hues and **subtle** graining patterns that are inherent to the **maple** species.

### Product Description

Hampshire, an exquisite 3/8" thick natural maple veneer, is available in both 3 1/4" and 5" wide planks. Distinguished by the rich hues and pronounced graining patterns that are inherent to the maple species, each plank of this Epic hardwood is further enhanced by microbeveled edges and ends and also features a lustrous full-filled furniture finish. This product is protected by Shaw's premium DuraShield™ finish and, with its limited Lifetime warranty, will last for generations to come.

### SHAW GREEN EDGE™

Epic's 3/8" thick hardwood products use approximately 50% less newly forested wood in their production than conventional 3/8" engineered alternatives. **That's the Shaw Green Edge |**

Note: All woods are affected by light. Some exotic species will darken while other species will tend to lighten over a period of time when exposed to natural and artificial light sources. Some wood species darken and/or lighten at a faster rate than others. This is a natural characteristic of wood and does not constitute any type of product defect.

### GLUELESS ENGINEERED CONSTRUCTION

Aluminum oxide enriched DuraShield™ finish

Premium hardwood veneer

**EnviroCore™** – densely compressed wood fibers fusion bonded in a non-directional construction providing unsurpassed structural integrity, impact resistance and moisture tolerance
