

# *Elite Ez-Frame Series*

Fixed Frame Projection Screen

**User's Guide**

Ver. 1.2

## Parts List

1. Frame Parts x 6 pcs (4 top frame pcs. + 2 side frame pcs)
2. Tension Rods x 6 pcs (4 top/bottom rods + 2 side rods)
3. Screen Material x 1 pc
4. Center joints x 2 pcs
5. Fix Plates x 30~60 pcs
6. Wall brackets x 4~7 pcs
7. Screws x 8 pcs
8. User Guide x 1 pcs
9. Center Support Bar x 1 pc
10. Support joiner x 2 pcs

**Please make sure all parts are included in your package before proceeding to assemble your Elite Screens fixed frame projection screen.**

## ASSEMBLING THE FRAME

1. Insert joint connector to horizontal frame piece and then fasten it with 2 screws

2. Insert the other horizontal frame piece to the joint connector and then fasten it with 2 screws.

Please do not tighten the screws completely, to make sure the frame piece lines up correctly.

3. Insert both corner joint connectors into the long (horizontal) frame (see fig.1)

( fig.1)

5. After making sure that all four corners join at right angles to form a perfect rectangle, fasten the four angles together by using the (x8) joint screws included. (see fig.3)

## Attaching the screen material to the frame

1. Lay out the screen and tension rods on a clean and dry surface. Insert the screen tension rods through the sleeves according to their corresponding lengths on each edge of the screen as seen below. (see fig.4)

( fig.4)

**Note: Please follow the next instructions carefully to assure the screen material is properly installed on the frame.**

- Place the screen material on the back of the built frame and slip the tension rods into the grooves running along each side on the back of the frame on all four corner and clip on the fix plates to the back of the frame to secure the rods into place creating tension for a tight and flat surface (see fig. 5 & fig. 6)

## Attaching the Fix Plates

1. Make sure that the material and frame are both laying face down on a clean, dry and non-abrasive surface.

2. Center the material inside the frame.

*Please note the material will be noticeably smaller because stretching the material is required to create a sufficient amount of tension for perfect material flatness.*

3. Start in the center of the long horizontal edge and then alternate with the short sides as shown in the diagram (**fig.7**). Numbers 1-8 indicate the recommended order that you should attach your fix plates per section for an even tension distribution.

(Fig. 7)

## Center Support Bar

1. Insert the support joiner into each side of the center support bar to complete assembly.

2. Insert the Center Support Bar into the groove on the back of the frame with the bottom end near the approximate center point of the frame and place it in at an angle so that both ends of the bar are in alignment with the groove. (see Fig. 8 below for details).

3. Slide the top end of the bar into the top center point location to complete center support bar installation. **This will provide added stability to your frame and added tension to the material.**

## Installation

Method 1 (smaller than 135" diagonals)

## Method 2 (larger than 135" diagonals)

Position the screen with the attached surface onto the top wall bracket as shown in (fig.8). Push down at the center of the bottom frame rail to hook onto the lower wall bracket

(fig. 9)

## CAUTION

**Please follow these instructions carefully to ensure proper maintenance and safety with your EZ-Frame Screen**

1. When hanging the screen up, please make sure that no other objects such as power switches, outlets, furniture, ladders, windows, etc. occupy the space designated for your Fixed-Frame screen.
2. Regardless if the screen is hung on or installed into the wall, make sure that the proper mounting anchors are used and that the weight is supported appropriately by a strong and structurally sound surface just as any large and heavy picture frame should.  
(Please consult a home improvement specialist for the best advice on installation)
3. Frame parts are made of high quality velour-surfaced aluminum and should be handled with care.
4. When not in use, cover over the screen with a furniture sheet to protect it from dirt, grime, paint or any other impurities.
5. When cleaning, use a damp soft cloth with warm water to remove any marks on the frame or screen surface.
6. Never attempt to use any solutions, chemicals or abrasive cleaners on the screen surface.
7. In order to avoid damaging the screen, avoid touching it directly with your fingers, tools or any other sharp or abrasive objects.
8. Spare Parts should be placed out of reach of small children in accordance with household safety guidelines.

## WARNING

- **The projection screen frame is made of high-quality aluminum alloy and should be handled with care.**
- **Use a soft cloth with warm water to remove any spots on the screen surface.**
- **To avoid damaging the screen material, never attempt to use any solutions, chemicals or abrasive cleaners on the screen itself and never attempt to touch screen with your fingers or sharp/abrasive objects.**

## Warranty Policy

- Two (2) year warranty on parts and labor from defects in workmanship from purchase date as follows (except for refurbished units as specified below):
  - Refurbished units carry a 90-day parts and labor warranty.
  - Demo units or open box items are "AS IS" items and do not carry a warranty.
  - Each party will be responsible for one way shipping during the warranty return/exchange.
  - DOA (Defective on Arrival): Must be reported within 7 business days of receipt. An RMA (Return Merchandise Authorization) number must be issued in order to process a replacement. Elite Screens will replace the DOA (Defective on Arrival) unit with a brand new replacement \*(see exceptions below) after the DOA unit is received and/or confirmed defective. Once the product is received, Elite Screens will send out a new \*unit to the customer by ground service (subject to inventory availability). Should a problem be reported after the 7-day grace period, the item must be shipped to us for warranty repair.
  - Missing Parts must be reported within the 7-day (DOA) grace period. If reported after 7 days, customer will be only be responsible for shipping and handling fees up to 30 days. If reported after 30 days of receipt, customer is responsible for cost of the parts and shipping & handling fees.
  - Please DO NOT return any unauthorized items to Elite Screens, as they will be refused at shipper's expense. The RMA number must be included on the outside label of your shipping box and shipping documents. Our warehouse is not authorized to accept returns without an RMA number on the shipping label. RMA numbers are valid for 45 days from the date of issue.

**\*A new or refurbished replacement will be sent out to the customer depending on the type of purchase (new or refurbished) or based on stock availability.**
