Parts List for the DIY Screen Series

Please make sure all parts listed below are included before proceeding with the installation.

a. Outdoor Screen Material

b. Dynamic Rope

c. PP绳

Parts List	QTY
a. Outdoor Screen Material	1
b. Dynamic Rope	1
c. pp绳z	1

NOTE: Prolonged storage of the DIY Screen Series in its factory packaging may result in having noticeable horizontal lines on its surface. The lines are identified as "Memory Lines". The Memory Lines can be eliminated by leaving the screen in the down position for a few days after the installation. This allows the material to stretch out. After the few days of leaving the screen installed, the Memory Lines should vanish without return.

Installation

1. Unroll the screen material on a clean surface.

2. Cut the Dynamic Rope to the length needed for installation.

3. Insert the Dynamic Rope through each hanging hole in the material and attach to the installation location.

4. Tightly fasten the Dynamic Rope throughout each hanging hole to make the screen flat while securing the rope to the installation location.

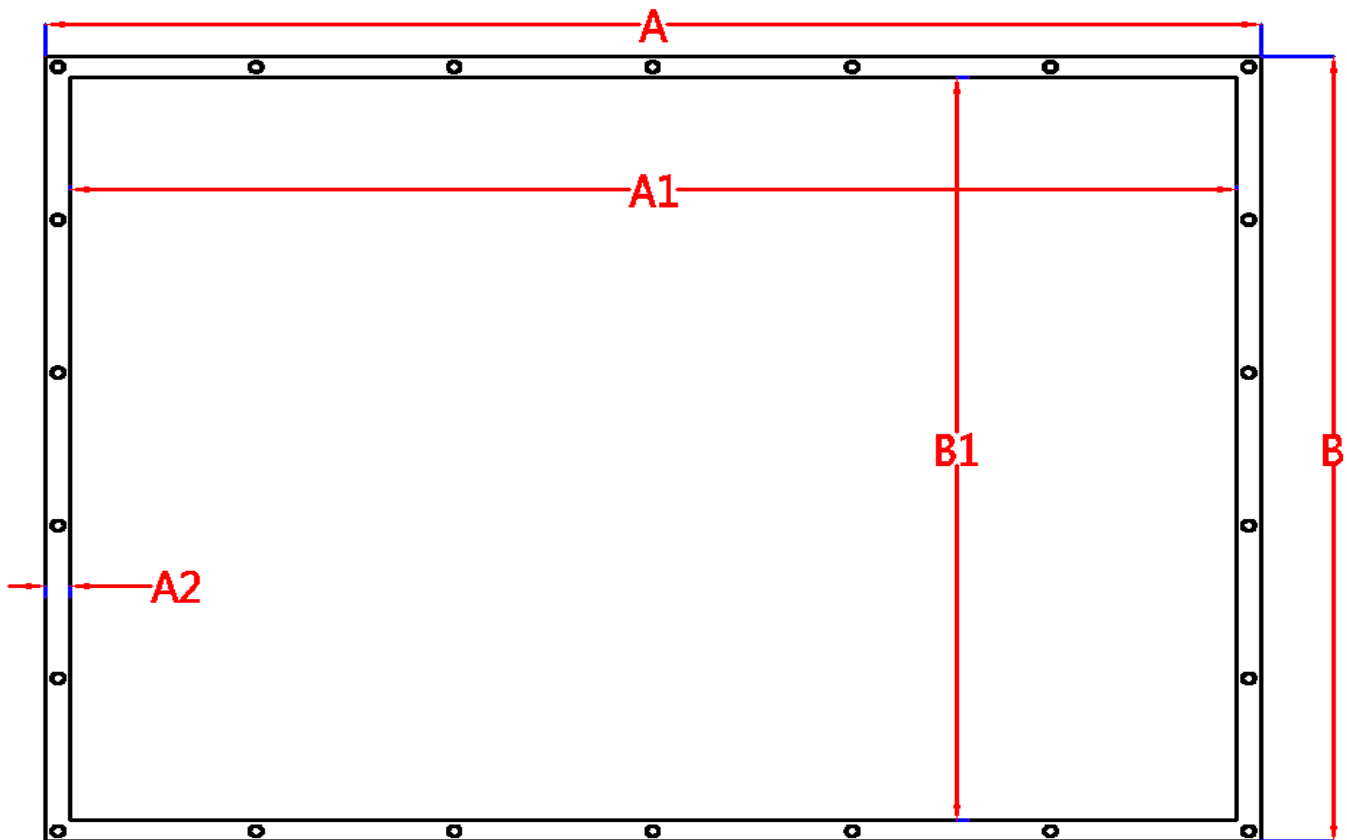

Note: Wrap rope with tape before cutting
