

903 Soho Instructions

903 Soho TABLES

(48" Round, 30" Bistro, & Pub Table)

These items will come with the necessary tools and screws for the installation.

1. Simply line up the holes with the table top and screw in partially
2. Once all holes have their screw you can tighten
3. Note for the Pub table the base has to be connected first before attempting to tighten screws.
4. Place glass on top of the table.
5. If you have a hard time lining up screws a second person can help influence the alignment to fully screw in place.
