Extension cord attaches to hidden plug on bottom of bird bath.

A K570-01 KozyBird Spa Heated Bird Bath With Pedestal*

150 Watts, 120 Volts

- Durable, Granite-Colored Polymer
- Hermetically-Sealed Heating Element
- Sculpted Design with Island
- Thermostatically Controlled
- Over-Temperature Protection
- CSA Listed
- Three Year Warranty

With a beautiful, sculpted design that looks and feels like natural granite, the K570-01 KozyBird Spa* is compression molded for strength, with the heating element hermetically sealed within a durable polymer. Thermostatic control keeps the unit running efficiently, and the center island creates a shallow, natural puddle to attract small birds.

The basin screws off with a quarter-turn for easy cleaning. An extension cord can be routed through the pedestal to provide power to the unit. Also available in unheated version (K475-01).

B K673-01 KozyBird Spa Heated Bird Bath With Deck Mount*

150 Watts, 120 Volts

- Durable, Granite-Colored Polymer
- Hermetically-Sealed Heating Element
- Sculpted Design with Island
- Thermostatically Controlled
- Over-Temperature Protection
- CSA Listed
- Three Year Warranty

This unit is same as the K570-01 KozyBird Spa* above but with a sturdy, matching deck mount instead of pedestal. Also available in unheated version (Model K875-01).

*Not LOCKNDRY Compatible.

C Heated 20" Bird Bath

600 150 Watts, 120 Volts

670 150 Watts, 120 volts, with Pedestal

70B Plastic Pedestal with EZ-Twist™ Mounting Hardware

- Weather-Resistant Plastic
- Bird-Friendly Design
- Thermostatically Controlled
- Over-Temperature Protection
- CSA Listed
- Three Year Warranty

This beige, heated bird bath is thermostatically controlled and 20" in diameter.

The model 600 comes with hardware to mount the bath to almost any post or pedestal (stone, wood, or plastic) or deck railing.

The model 670 comes complete with a plastic pedestal and EZ-Twist hardware. The cord can be routed through the pedestal and then the base can be filled with sand or gravel.

D 400 Heated 12" Bird Bath With Stand

50 Watts, 120 Volts

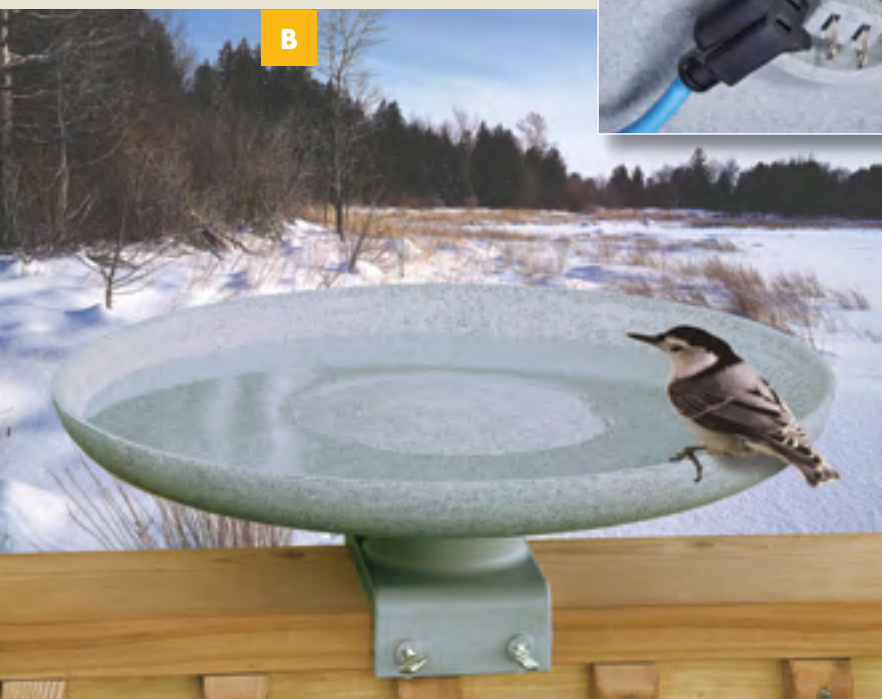

- Weather-Resistant Plastic
- Thermostatically Controlled
- Over-Temperature Protection
- CSA Listed
- One Year Warranty

This terra cotta-colored, plastic heated bird bath is 12" in diameter, thermostatically controlled, and comes complete with a 30" tall metal stand. The heating element containing all electrical parts simply snaps in place and may be removed during non-winter months so the bird bath can be used all year round.
