

DIRECTION FOR HANGING FLOATING SHELF

1. Locate studs on the wall where the shelf is to be hung using a stud finder or by tapping the wall to locate hollow areas. Once studs have been located mark them with masking tape.

Place a level where the shelf is to be located and mark again with masking tape.

DIRECTION FOR HANGING FLOATING SHELF

2. Attach bracket using supplied screws into the marked studs, making sure you are level.
3. Slide on shelf until it is flush against the wall and secure with nails (optional) to prevent sliding.
