- Scalemaster technology reduces scale build up and prolongs shower life
- Six mode scale resistant shower head
- SlideFit™ accessory kit including soap dish
- 1.25m anti kink hose
- Removable bottom and side sections for ease of installation
- 2-year Guarantee

## Push Button Control

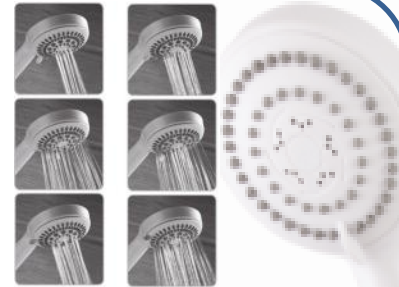

Push button controls enable the user to stop and start the shower as well as select the appropriate power setting to heat the water.

## UK: Hard Water Area Map

## Ideal for hard water areas

Scalemaster protection reduces lime scale build up on the heating elements ensuring a longer life and more efficient operation of your shower

## Six Mode Shower Head

Choose from 6 spray patterns to provide a showering experience to suit the user, whilst rub clean nozzles reduce lime scale build up

Galaxy has over 15 years experience of designing and manufacturing electric showers here in the UK.

TempSure™ Plus: Temperature fluctuations are minimised by constantly compensating for changes in water pressure whilst a thermal cut out will stop water heating should the temperature become unsafe. Also incorporates phased shutdown flushing excess hot water to ensure a cool starting temperature for the next user.

**Neon Lights:**  
Indicate power selection and low pressure/auto reset shower conditions

**Three Power Settings:**  
Cold: Ideal for rinsing  
Eco: Uses half power, ideal during summer months  
High: Full power when cold winter months.

**Stop/Start Button:**  
Retains last user settings for ease of operation

**Temperature Dial:**  
Large central dial controls the showering temperature to suit the user

**Six Mode Shower Head:**  
A scale resistant rub-clean shower head

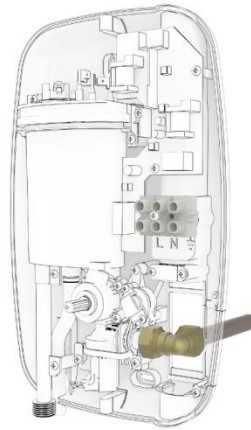

Adjustable fixing brackets on accessories for ultimate flexibility

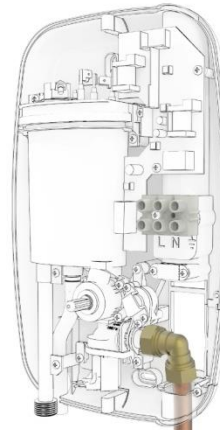

**Anti Kink Chrome Hose:**  
A 1.25 anti shower hose for showering flexibility.

**Soap Dish:**  
For storage of soap and bathroom essentials
