

IMPORTANT
TURN OFF THE POWER AT THE MAIN
FUSE OR CIRCUIT BREAKER
BOX BEFORE STARTING
INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs are not included.

1. Hold main frame securely while removing 2 ball cap nut from top cover. This will allow the entire bottom assembly to drop. Install bulb (refer to maximum wattage label on socket housing).
2. Place top cover onto small threaded studs of main frame and secure with ball cap nuts.
3. Twist bottom finial onto threaded stud. Slip bottom font over threaded stud and screw threaded stud into bottom of main frame.
4. Follow enclosed **“fixture installation instructions”** for electrical installation and lantern installation to outlet box.
