

IMPORTANT
TURN OFF THE POWER AT THE MAIN FUSE
OR CIRCUIT BREAKER BOX
BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulb not included.

- 1.** Follow first enclosed **“Multiple Standard Installation Instructions”** for electrical and fixture installation onto wall outlet box.
- 2.** Install a hex nut onto long threaded pipe leaving about 1” (25 mm) thread exposed at bottom. Slip the short threaded end of the long threaded pipe through hole which is located at bottom of fixture plate. Then lock into position by fastening with a lock washer and another hex nut from above.
- 3.** Gently slip glass shade until it rest onto ring. **NOTE:** To allow easier slipping of glass shade, make certain bottom hole of glass shade pass through, not over, the socket.
- 4.** Install fitter onto the long threaded pipe by fastening with the finial.
- 5.** Install light bulb (not included). See relamping label at socket area for type and maximum allowed wattage.
