

IMPORTANT
TURN OFF THE POWER AT THE MAIN FUSE
OR CIRCUIT BREAKER BOX
BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs are not included.

1. Install fixture loop by screwing onto threaded pipe which is located at top of fixture.
 2. Secure arms:
 - A. Temporarily remove ball cap nuts which are located at top center body. Set them aside.
 - B. Turn arms in upright position, as shown in illustration. Then while slightly pulling arm forward lock into threaded studs. Make certain not to scrape back of arms.
 - C. Secure arms by fastening back the ball cap nuts.
- NOTE:** Extra ball cap nuts can be found in a plastic pouch attached inside of box.
3. Follow enclosed **“Chain Suspended Fixture Installation Instructions”** for electrical and fixture installation onto ceiling outlet box.
 4. Install shades onto fitters by fastening counter rings onto threaded sockets.
 5. Install bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
