J-BED® MEMORY FOAM FOLDING BED

This iconic Jay-Be folding bed brings together the most innovative technologies to create one of the most luxurious folding guest beds imaginable. Made using the finest materials, the anodised aluminium frame is lightweight and sits on premium 360° castors which allow the bed to be easily manoeuvred. Precision injection moulded components compliment the stylish appearance. The exclusive J-Lok® folding mechanism enables effortless opening and closing of the bed - one side at a time.

Resting on the two meter long sprung slatted base, the contemporary mattress combines high density rebound foam with viscoelastic memory foam to provide exceptional support and personalised pressure relieving comfort. The mattress is tailored in a high quality, soft to touch fabric so the full benefits of the memory foam are experienced.
