ROYAL POCKET SPRUNG FOLDING BED

Using the latest patented Micro Pocket Spring technology, this Jay-Be folding bed combines all the benefits of a compact guest bed with the added comfort of a luxurious pocket sprung mattress. Sitting on a sprung slatted base which flexes as you move to offer adaptable support, the pocket sprung mattress has over 400 individual pocket springs, topped with sumptuous fillings which adapt to the contours of your body to offer exceptional personal comfort.

The robust steel frame is finished in a high quality durable epoxy paint finish for a long lasting new look and the 360° castors allow easy manoeuvrability. Fully automatic folding legs open on their own so it is easy to put up in seconds; simply unfold and let the automatic legs do the rest. The automatic folding leg mechanism makes Jay-Be folding beds more compact when folded than other folding beds.
