Philips Screwdriver

Level

Drill

Tape Measure

Safety Glasses

## CODES / STANDARDS APPLICABLE

This product meets or exceeds The California AirResources Board (CARB) standard for Airborne Toxic Control Measure (ATCM).

**CALIFORNIA 93120  
COMPLIANT FOR  
FORMALDEHYDE**

## FAQ:

Q: What is the California formaldehyde regulation?

A: Starting Jan 1, 2009, the California Air Resources Board (CARB) will implement new limits for formaldehyde emitted from composite wood products. This CA regulation governs the formaldehyde in raw composite wood panels and finished products sold or used in California.

Q: Why is California regulating formaldehyde emissions from composite wood products?

A: CARB's mission is to ensure the best possible air quality for the citizens of California. To achieve that mission, CARB continuously monitors sources of air pollution in the state and acts to reduce emissions whenever possible.

Q: Do the new standards apply only to products sold in CA?

A: Yes, the CA regulation applies only to products offered for sale or use in CA. However, a number of other states are already considering adopting the CA regulation.

## INSTALLATION INSTRUCTIONS

1

Install mirror hanger onto the wall

2

NOTE: Mirror may vary from the picture above. Instructional purposes only.

## CARE AND CLEANING

For best results, keep the following in mind when caring for your XYLEM product:

- To maintain the beauty of the finish, avoid placing the furniture in direct sunlight, as sunlight causes fading. Also avoid extreme changes in temperature by arranging furniture away from radiators, heat and air vents, and air conditioning units. Avoid placing furniture directly under windows.
- Dust the vanity frequently with a clean, soft, dry, lint-free cloth, as well as polish it on a regular basis. Clean the surface by rubbing in the direction of the grain. Avoid using silicone cleaners and waxes.
- Clean up excess water and spills immediately. Use blotting rather than a wiping action. Water left over a long period of time will cause white spots in the finish. Please note that some chemicals may damage the finish.
- Clean the mirror using a soft, slightly damp cloth. When cleaning the mirror, spray the mirror with a glass cleaner and wipe clean.
