Features & Benefits

Features & Benefits of American Acrylic Walk-In Tubs: American Acrylic offers both the 26 inch and 30 inch Walk-In Tub, as well as a long list of features and benefits designed to fit whatever need you may have. By offering a full-featured product with the greatest possible benefits, We hope to help you enhance your independent lifestyle!

Standard Features *Exclusive!*

Double Water Tight Seal: Features a true Lifetime Warranty. Our Walk-In Tub is the only Walk-In Tub on the market that has an extra double water tight door seal installed at the factory. Our Walk-In Tub only needs one seal to be water tight, but we insist on two.

Wide 18 1/4 Inch Door: Makes our Walk-In Tub easy to get in and out of. Our easy access door also features a stainless steel piano hinge, which is far superior to doors that use two separate hinges.

Rounded Door: Our Walk-In Tub door is rounded at the bottom so you won't have to move your feet and legs out of the way to close the door.

Delta Faucets: Delta faucets are known in the plumbing world for being the best in quality. All of our Walk-In Tubs come standard with Delta high volume faucets and showers. The faucets that we use are elegant, Roman-style faucets, which fill twice as fast as a standard tub faucet. Delta faucets have a Lifetime Warranty and come in several different finishes.

***Exclusive!* Cable Operated Drain:** Has an easy to use handle. With our drain system, any person can open or close the drain with very little effort, and without having to bend down or move from the comfort of the seat. Our drain handle is easy to grip and easy to operate.

***Exclusive!* The Deepest Soaking Tub:** Our Walk-In Bathtub is by far the deepest soaking tub available, measuring an impressive 21 inches from the top deck to the seat, which allows most people to soak shoulder deep! Our Walk-In Tub is designed for ultimate comfort and relaxation.

Six Inch Step-in Height: Our low step-in height allows for safe and easy access to the tub, which enhances your independent lifestyle.

Anti-Slip Floor: The tub floor has a molded anti-slip surface for safety and **Anti-Slip Comfortable contoured Seat:** Our seat with air jets make the bathing experience more comfortable.

16 Inch High Seat: The perfect seating height to ensure your safety and comfort.

Door available in Right hand or Left hand: Our Walk-In Tubs can be ordered either way to fit any bathroom layout.

Easy to Grip Door Handle: Our Walk-In Tubs are designed so that any person, regardless of strength or physical dexterity, can easily open and close the door.

or sit-down shower.

Shower Curtain, Rod, & Rings: These features come standard on all Walk-In Tub models.

Built-In Towel Rack: So you always have a towel within reach, and right at your fingertips.

Built-In Grab Bar: Provides a bathing experience which is a safe and comfortable one.

One Inch Steel Frame: Like your own home's foundation, our steel frame is the foundation for our Walk-In tub's quality and durability. With the steel frame, the tub will never twist or become distorted, which could cause the tub to leak. Our frame has completely welded joints, a powder coated finish, and built to last.

Seven Leveling Legs: The seven leveling legs make sure there is plenty of support for the tub, and makes installation much easier. Just twist them down, and lock in place, that's it!

AAI Walk-In Tubs: Optional Features an Exclusive! Air Massage System with over 40 jets that surround you in millions of tiny warm air bubbles. Our channelized air massage system has many advantages that you just can't find on other tubs: our system uses hot air to maintain your water temperature longer. A three-speed pump system which makes it easy to find the perfect setting creating a relaxing therapeutic soaking bath. unique air jets that are flush with the surface of the tub, making our tub much more comfortable, safer and easier to clean. Our pump system has a self cleaning feature, which automatically turns on after you finish using the tub. The system blows warm air through the lines, removing any excess water left that could potentially grow bacteria or mold. Our tubs can be used with soap and bath oils to give you a fully functional and relaxing bathing experience.

***Exclusive!* Re-circulating water Heater:** We are the only walk in tub company to offer a true re-circulating heater. To receive maximum benefit from hydrotherapy or air massage, it is important that your water always be at a comfortable temperature. Our heater can continuously maintain the perfect temperature of your bath water, without it ever cooling down. VERY NICE!!!

Hydro-therapy Pump with Six Jets: This style of pump system on our tubs is offered as an addition with air massage. this feature is for bathers who prefer hot tub-style jets. These jets can be custom placed to target any particular spot on your body that may need extra attention. Mini lateral cluster jets are also available.

Thermostatic Mixing Valve: Many people with diabetes and other diseases have trouble sensing the temperature of water. Our mixing valve can be set so that under no circumstances can the water temperature harm anyone using the tub.

End Panels: These panels can be ordered to fit any side of the tub, so the Walk-In Tub can be installed in any room and in any configuration.

Filler Panel: This panel is used to fill in the extra space between the Walk-In Tub and the wall in certain installations.

Custom Color Match: We have the ability to custom match your Walk-In Tub in any color that you may desire, as an optional upgrade.
