

ADJUSTER

HCPCS CODING: E2622/E2623
ADJUSTABLE SKIN PROTECTION

PRODUCT FEATURES

Leg compartments may be adjusted to elevate legs to control forward leaning or lower legs for improved foot propulsion.

Rear compartments allow deep immersion to redistribute pressure and maintain sitting stability.

Medial band prevents forward migration of the pelvis.

Adjustments may be made to accommodate left or right asymmetries.

- Five fully adjustable compartments provide custom fit with maintenance free air cells.

- Newly designed Comfort Cells are softer and quieter, allowing the user to immerse into the cushion more than ever before.

PATENTED VICAIR® TECHNOLOGY

Add or remove "Comfort Cells" as needed to customize the cushion to fit each person's individual needs. Newly designed comfort cells are softer and quieter. This gives the cushion a softer feel and allows the user to immerse into the cushion more.

NOTES

+ CUSHIONS AVAILABLE WITH RIGID INSERTS & EXTRA INCONTINENT PROOF LINER. SEE PAGE 19 FOR DETAILS

COVER OPTIONS

STRETCH-AIR FABRIC: designed for air transmission and heat reduction. This breathable laminate combines a high-stretch polyester top layer with a breathable vapor barrier.

COMFORT-TEK FABRIC: the fluid proof exterior has supple leathery properties that provide an easily cleaned surface and protection for the inner cushion. Comfort-Tek has multi-dimensional stretch and helps alleviate pressure on bony prominences.
