Ordering Example (series - model number + trim): HR-801

Product Details	
Description:	Low voltage remodeling style housing with integral electronic transformer for cabinets, displays, soffit, and similar low profile applications.
Materials:	Housing is 20 gauge galvanized steel, painted black. Electrical components within the can are a bi-pin ceramic socket with nickel plating and 18 gauge teflon insulated wires with fiberglass sleeves.
Transformer:	Electronic transformer for 12 volt MR16 lamps, 50w maximum. 120V input transformer.
J-Box:	Three 1/2" knockouts provided for wire entry and exit. Suitable for chain wiring.
Mounting:	No screws, nails or hardware required. Flat "wing" springs expand against the cut out hole to hold fixture against the surface. 3" cutout hole.
Ratings:	Non-IC rated. Insulation must be kept at least 3" away from housing. UL and CUL listed. Suitable for damp locations. Thermal protector located inside the unit protects against overlamping.

Specification Features
<ul style="list-style-type: none"> • Small sized remodeling unit is compact enough to fit in 2x6 joist installations, allowing these to be used in "shallow" applications. • Electronic transformer has advanced auto-reset, soft start and short circuit protection features. • Handles mounting surface thickness up to 3/4". • Optional mounting clips for ceiling materials greater than 3/4" thick. Contact factory for ordering information. • 2 year W.A.C. Lighting product warranty.
