**Twin Tube/Cube Bath Installation Kits**

This innovative and contemporary Monorail lighting system offers the ideal combination of direct and ambient lighting for any bathroom mirror application. Available with Twin Tube Head and Twin Cube Head. Each kit consists of:

- (1) 36" Monorail
- (3) Low-voltage Twin Tube/Cube Heads
- (2) Telescoping rigid standoffs (adjusts 2.5" to 4")
- (1) Set of endcaps
- (1) Remote canopy and power feed combination
- (1) 75W electronic transformer (when ordered with 10W lamps)  
or  
(1) 150W remote electronic transformer (when ordered with 20W lamps)

Canopy Option: Typically, a 4" canopy is specified with this kit, but LBL also offers a special 2.75" canopy and corresponding 2" electrical box for a sleeker look. Both 2" and 4" electrical box sizes can house the 75W miniature transformer, but an accessible remote location is required for the 150W remote electronic transformer (comes with kits specifying 20W lamps). A good example of a remote location for this application would be the interior of a bath vanity.

**Consult factory for custom lengths.**
