

**GENERAL DESCRIPTION:**

Concealed, Sensor Operated Selectronic™ Toilet Flush Valve with Wall Box (Front Access) for wall hung bowls with 1-1/2" back spud.

Inlet includes 1" I.P.S. angle stop (with integral back-flow preventer & wheel handle) and sweat solder kit. Outlet includes 1-1/2" vacuum breaker with adjustable tailpiece, spud coupling and flange.

**PRODUCT FEATURES:**

- Electronic flush valve with Selectronic™ proximity system for hygienic "Hands Free" operation
- Self-Cleaning Piston helps prevent clogging & reduces maintenance
- Positive Seal ensures leak-free performance without the chance of warping or cracking
- Fully Mechanical Manual Override Button can flush toilet during a power outage
- Range can be adjusted manually or by remote control
- State-of-the Art electronics eliminates false flushes
- Sensor & Electronic controls are hermetically sealed to ensure reliable operation
- Automatic flushes after 24 hours of non-use to maintain trap seal & clean fixture
- Fail-Safe - valve automatically closes on loss of power; remains closed during start-up
- 3 second flush delay
- Low Battery indicator
- All exposed parts are chrome plated
- ADA compliant

**MODEL NUMBER:**

- 6065.362.007 DC Powered, 1.6 gpf**  
 Battery included  
**FRONT ACCESS**  
 Manual Override  
 Stainless Steel Wall Box And Cover Plate
- 6067.362.007 Plug-In AC Powered, 1.6 gpf**  
**SAME AS ABOVE**  
 AC Supply (M950169-0070A) included
- 6068.362.007 Multi-AC Powered, 1.6 gpf**  
**SAME AS ABOVE**  
 10' Extension Cable included  
 One AC Supply (sold separately) supplies enough power to run up to 15 flush valves

**OPERATING PRESSURE:**

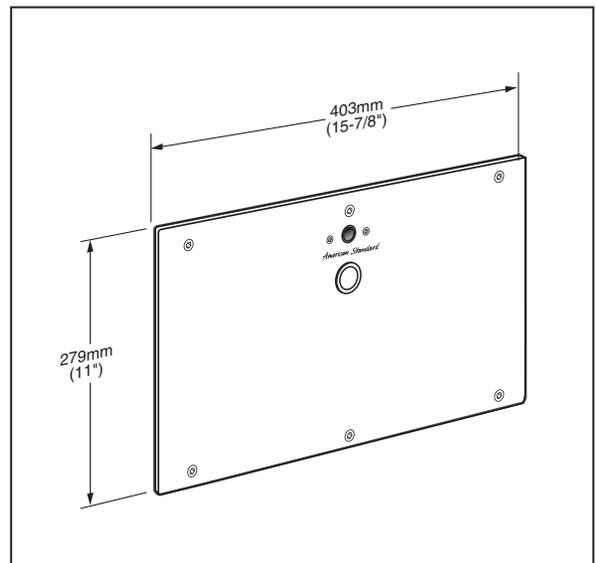

Overall Range: 20-125 psi \*\*

Recommended: 25 psi (flowing) - 80 psi (static)

\*\*Water pressure over 80 psi is not recommended with most plumbing fixtures

**BATTERY LIFE:**

Up to 4-year life (approx. 200,000 cycles)

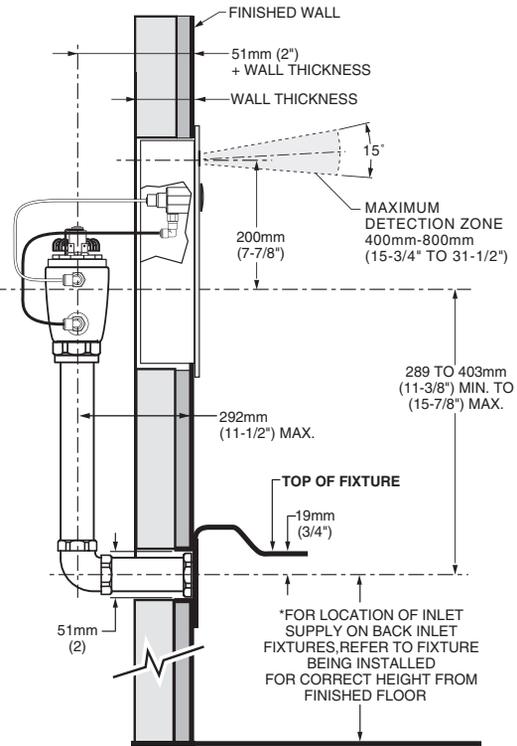

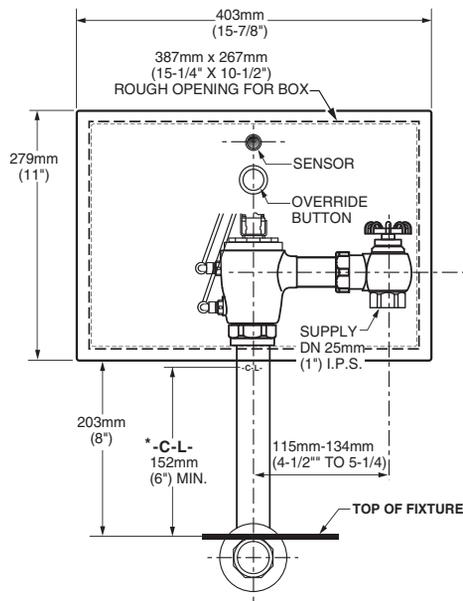

**RECOMMENDED SPECIFICATION:**

Electronic proximity infrared sensor activated toilet flush valve for wall hung bowls (with 1-1/2" top spud) shall feature self-cleaning piston valve. Valve must automatically remain closed during start-up, close automatically upon loss of power, and include a fully mechanical manual override button to allow for flushing without power. Includes cast brass valve body, stainless steel wall box and cover plate with vandal-resistant screws. Angle stop and vacuum breaker included. Must be installed and maintained from the front. 1.6 gpf / 6.0 Lpf. Flush valve shall be American Standard Model # 606\_362.007.

**LISTINGS:**

- ASSE 1037
- ANSI/ASME A112.19.2
- ADA Compliant

**Roughing-in Dimensions  
CONCEALED BACK SPUD BOWLS**

\*Note: The Critical Line (-C-L-) on Vacuum Breaker must typically be 6" (152mm) min. above fixture. Consult Codes for details.
