

SNOW JOE ULTRA MODEL SJ621

Electric Snow Thrower With Light

Instant Start

Ergonomic Grip

Easy Push Button Switch

180° Adjustable Chute

Convenient, Compact Shape

Chute Deflector Controls Height of Snow Stream

Cuts Up To 18 in. (45.7 cm) Wide and 10 in. (25.4 cm) Deep in One Pass

Powerful 13.5-Amp Motor

20W Halogen Light

Scraper Clears to the Pavement

Responding to the need for an easy-to-use machine that could tackle heavier snowfall on large driveways and walkways, Snow Joe® developed the Snow Joe® Ultra SJ621, a larger electric snow thrower that delivers the power of a gas machine with the convenience of an electric unit. Driven by a 13.5-amp motor, the Snow Joe® Ultra moves up to 650 lbs of snow per minute. Its durable, 4 blade rotor, constructed of heavy grade steel, cuts a full 18-inch wide and 10-inch deep with each pass, clearing 2450 square feet per hour.

In addition to its hard-working plowing capacity, the Snow Joe® Ultra features an adjustable discharge chute that rotates a complete 180° to provide full control over the snow discharge direction. The chute deflector can also be adjusted to control the height of the snow stream. Easy-glide pivot wheels make the Snow Joe® Ultra easy to turn and maneuver on each pass. The scraper blade at the base of the unit efficiently scrapes the snow clear to the pavement.

Like the Snow Joe® 322P, the Snow Joe® Ultra SJ621, is powered electrically, making it effortless to start and maintain. No gas, oil, or tune-ups are necessary. The unit is ETL-approved and carries a full two year warranty. For heavier snowfall on large driveways and walkways, the Snow Joe® Ultra SJ621 is your smart solution this winter.
