- Combines pressure point therapy with cold therapy.
- Helps relieve tension headaches and low-back pain.
- Use to relieve muscle soreness.
- Great for massage setting, doctor's office or home use.
- Store in freezer.

Pressure Point Therapy

Getting relief from headaches, low-back pain and muscle soreness is easy with Pressure Point Therapy Packs. These packs use a unique combination of pressure point therapy and cold therapy to help relieve your headaches and pain.

Cross-linked therapy balls, encased in a cold therapy gel, are ergonomically positioned to fit pressure points at the base of the skull or lower back. The Dual Comfort cover offers both slow-release and rapid-release treatment surfaces. The cold gel is non-toxic and biodegradable. Store the packs in the freezer for convenience.

Slow or Rapid-Release Therapy

These Dual Comfort Packs feature two "frost-free" surfaces to provide a full-range of treatment. The plush surface provides slow-release treatment, while the rapid-release surface provides quicker results for more acute situations.

Versatile Therapeutic Comfort

Great for relief from headaches, back pain and muscle soreness, these packs are available in two sizes to effectively treat virtually any spot on your neck or back. Non-toxic, biodegradable gel retains therapeutic temperatures longer. Store in the freezer until needed; stays soft and pliable.
